

Self-Machine-Learning Platform™

Your Personal AI-Private Funds Assistant has arrived!

Do you still wait until the private funds & fund managers and M&As are acting officially?!

The Axonjay Self-Machine-Learning Platform™ can predict which private funds will open or close in the near future, monitor private funds, mergings & acquisitions and more. It's accurate and trusted information in real time for better investment decisions.

Adopt the AxoJay Self-Machine-Learning Platform™ and be the first one to know:

1

Private Funds Prediction (PFP)

2

Monitoring Private Funds (MPF)

3

Merging & Acquisitions Predictions (MAP)

4

Company Cash Prediction (CCP)

What is the magic? Our Self-ML Platform™ is a grey box, not a black box. You directly influence the results, your feedback instantly alters our algorithms. The impact of each signal on the algorithms is visually shown through a number of stars for each signal. The more stars you see, the bigger the impact of the signal on the algorithm. ★ ★ ★ ★
